Assalamu Alaikum WRWB

Dear Parents,

Ramadan Mubarak, may Allah SWT accept our prayers and our fasting and forgive us, guide us and bless us with peace and happiness, Ameen.

Alhamdulillah we are in the last quarter of the school year, and this year has been filled with exceptional educational growth and extracurricular activities. We are blessed to have a wonderful staff that puts in outstanding efforts to provide an exemplary atmosphere for our students to succeed.

We would like to thank all of our parents for trusting us with your child's education and Islamic tarbiyah. We hope and pray that Noor Academy has met your expectations. We are committed to providing the best for your child, and we are always open to suggestions for improvements.

Have a blessed Ramadan, and we look forward to seeing all of you at graduation InshaAllah!

Anjum Sultana

Noor Academy Administrator

3RD ASHRA (DUA FOR 3RD 10 DAYS)

اَللّٰهُمَّ اَجِرْنِيْ مِنَ النَّارِ
"ALLAHUMMA AJIRNI MINAN NAAR"

Prophet Mohammed ﷺ Favorite Food

Prophet's Favorite Foods' is an important school event here at Noor Academy every year. During this PTO sponsored event teachers put in a special effort to prepare the food that محمد ﷺ liked to eat. Children also dressed up in Prophet محمد ﷺ favorite colors (green and white) and were taught about Prophet محمد ﷺ manners and sunnah regarding eating to further instill the love and respect for our beloved Prophet محمد ﷺ. Children truly enjoyed the lovely menu that included dates, milk, cantaloupe, olives, figs, pomegranate, grapes, cucumbers, bread, honey, olive oil, water melon and pumpkin.

Detroit Science Centre- 1001 Islamic Inventions

Students of 1st and 2nd grade visited the 1001 Islamic Inventions Exhibition at the Detroit Science Centre. They were blown away with more than 60 exhibits, short films, live science shows, hands-on workshops and learning resources. They were introduced to the Golden Age of Science in Muslim Civilization and the achievements of both women and men of different cultures and faiths during the period leading up to the European Renaissance. These innovations built upon the knowledge of ancient civilizations and offered breakthroughs that still influence our world today. This field trip truly allowed a strong sense of Muslim pride, belonging and inspiration to blossom within our students

Umrah Simulation

This year Noor Academy hosted an Umrah Simulation where all the students dressed in Ihram and performed the steps of Umrah. Children then had a refreshing drink of Zam Zam water and performed a delightful program for the parents sitting in the audience. Umrah Simulation also commenced Noor Academy PTO's first fundraising Bake Sale. Jazakum Allahu Khair to Noor Academy's awesome parents for donating delicious goodies for the bake sale and making it such a wonderful success!

Chuck E. Cheese

Noor Academy PTO hosted its yearly Chuck E. Cheese fundraiser. The students had a surprise visit from Chuck E. at school and then Noor Academy families proudly showed up in great numbers to enjoy a fun filled evening to support their school. Noor Academy would like to specially thank all the families that made this event a great success. Jazakum Allahu Khair.

March Reading Month

To rekindle the love for reading, our school powered up for March- reading month. Children dressed up as their favorite story book characters and watched a play enacted by Sr. Farah (Art Teacher) as the Big Bad Wolf and Sr. Saba (parent-volunteer) as Red Riding Hood. Students also made personalized bookmarks during craft-time. Noor Academy Staff put in a lot of effort to sow the seed of love for reading within the students by holding secret parent-reader sessions as well as student-exchange read outs between grades. Some classes also held fun activities such as D.E.A.R (Drop Everything And Read) in pajamas while others had 'Reading while Camping' events; all to reinforce the importance of reading within the students.

Michigan amphibians & reptiles & their adaptations

Noor Academy's PTO funds always help sponsor fun and educational extracurricular programs. We appreciate our parents donating funds towards PTO, each penny is used towards student enrichment. This year for Science Live we had an amphibian and reptile program through Huron Metro Parks. It was fun and interactive like previous years. Students treasured the time spent on games, artifacts and puppet show. They learned about frogs, toads, turtles, snakes and salamanders, their life cycles and special features. To wrap it all up, students got to meet the live animals they've learned about.
