

“Noor Academy”: A place for your child’s education!

Education is the most valuable investment for the future of our children. It is beneficial not just for worldly gains but also for spiritual and moral development. Our religion emphasizes the importance of education; the first word of the Quran to be revealed was “Iqra” which means “to read”.

Exceptional education in a nurturing and caring environment is a wonderful gift that parents can give to their child. Alhamdulillah, Noor Academy is a place where you can send your child to give them something which they can cherish for the rest of their lives.

Just as Islam is not only a religion, but a way of life, Noor Academy is not just a place where we teach core academic subjects, Islamic studies and Arabic. We focus on how students can implement what they learn in school in their daily lives. Islamic manners and good citizenship are woven in the daily routines of the children.

Alhamdulillah, Noor Academy is a blessed place to be at. We have amazing staff members, parents, and students in our community who work with each other to strive for the best and make Noor Academy an exceptional school.

We are also thankful to the parents and community members who support the school with donations of time and/or money. Our special thanks go out to Executive Car Rental, SafeSplash and Rochester Family Medicine for sponsoring our yearly spirit t-shirts.

Noor Academy is not just an Islamic school; it’s a reflection of all the hard work the teachers and staff put in to see the students shine their brightest wherever they go. Year after year, Noor Academy produces strong students who are confident about their education and proud of their faith. This school strives to enrich the educational development of its students while strengthening their Iman. Education and prosperity go hand and hand, and when you educate your children, you secure your future. Children are the future, so invest in your future. Support Noor Academy!
